

Onsite Support Engineer

Job Specification

Birmingham

About the role:

As a result of rapid growth plans a fantastic opportunity has arisen for an **Onsite Support Engineer** to join our team of dedicated technical experts. This is the ideal role if you are looking to join a successful and growing organisation, that can offer you long term career development within a well-established and growing technical team of Tier 1, Tier 2 and Tier 3 Engineers.

This is a full time, permanent role, offering an immediate start for a dedicated Onsite Support Engineer who enjoys working within a busy and fast paced technical environment. This role has been created to support the rapid expansion of the company and would suit a highly competent individual with strong and effective communication skills.

The successful candidate will be required to complete a satisfactory DBS check.

The successful candidate will also be required to travel between the Birmingham Site and the Tamworth Site.

You will be responsible for:

- Responding to and resolving technical queries from end users and VIPs
- MDM administration
- Apple Mac application packaging
- Desktop troubleshooting
- Ensuring Customer Documentation is kept up to date
- Working with the team to identify and implement changes to the Customer Environments to address common issues
- Assisting with project delivery and roll out of equipment
- Providing the highest level of Customer Service

Key Skills:

- Experience in supporting Apple MacOS
- Experience in supporting Windows Desktop
- Strong people skills
- Strong grasp of networking fundamentals TCP/IP DNS DHCP
- Able to be self-sufficient and driven
- Willing to learn new skills

- Experience of troubleshooting issues with AV equipment
- Experience of troubleshooting issues with printers and network shares
- Ability to provide VIP support both remote and face to face
- Detail oriented and organised
- Have an ability to work independently, autonomously and take initiative
- Can multi-task and proactively manage various issues and conflicting priorities
- Have strong and effective written and verbal communication skills

In addition, the ideal candidate would also have experience in the following areas, however this is not essential.

- MDM (Mobile Device Management) Especially
- ADE (Apple Device Enrolment, previously DEP)
- Application packaging
- Jamf Pro
- Jamf Connect
- HP enterprise switching
- HyperV? ->
